Hog Auction Nets \$1490 For Livestock Show

A hog sold at the 1974 Milam County Junior Livestock Show for \$1490. The six buyers were Eisfeldt Brothers Farm, Citizens National Bank, Cameron; Anderle Lumber Company, Cameron; Zink Food Market, Cameron; Cameron Livestock Auction and Milam County Farm Bureau. The hog was donated by Cameron Swine Producers, Inc. Wally Eldridge of the Cameron Livestock Auction was the auctioneer.

Grand Champion steer was shown by Richard Fuessel, Thorndale FFA and Reserve Champion was shown by Eugene Kroeger, Thorndale FFA.

Grand Champion beef heifer was shown by Lisa Rubac, Buckholts 4-H and John Caffey, Thorndale 4-H showed the Reserve Champion heifer. Julianne McDaniel, Cameron 4-H, showed the Grand Champion fat lamb and Daniel McDaniel, Cameron 4-H, showed the Reserve Champion lamb.

Grand Champion ewe was shown by Starla Rodenbeck, Thorndale 4-H and Reserve Champion was shown by Windy Hirt, Thorndale 4-H.

Harvey Gommert, Buckholts FFA showed the Grand Champion Market Hog and Larry Orsag, Buckholts FFA showed the Reserve Champion hog.

Grand Champion gilt was shown by Lori Tomascik, Buckholts 4-H and Gary Cobb, Cameron 4-H showed the Reserve Champion gilt.

Daniel Richardson, Cameron 4-H showed the Grand Champion Dairy animal and Brian Cobb, Cameron 4-H showed the Reserve Champion.

Showmanship winners were: Beef - Richard Fuessel, Thorndale FFA; Dairy - Daniel Richardson, Cameron 4-H; Sheep - Billy Felfe, Thorndale FFA and Hog - Larry Orsag, Buckholts FFA.

Mrs. Albert Lehnert, Cameron, won the butcher calf. The calf was donated by the Cameron Livestock Auction and Milam Grain Company.

Trustees Eye Plans

Architects plans for proposed high school lab classrooms and restrooms were studied by Cameron trustees at a regular meeting of the board Monday night. Changes were suggested and revised plans will be ready in a week, according to the architect.

The rooms will be built adjoining Yoe High, and will provide covered walkways and expanded restroom facilities. The labs and the new field house, now under construction, are the first of the improvements planned for the local school system.

In other business, the board:

-- Heard compliments from Supt. D. R. Dodson on their work in selecting a new superintendent.

-- Made the time change for school official, and decided when the sun is up by 8, hours will change back to old ones of 8:30 to 3:45.

-- Okayed a contract with Exxon for gasoline during the year, but heard from Dodson that the school's allocation has been cut 14%, and that the school will run out of its present supply of gas by next week.

-- Discussed restrooms at Yoe Field and will decide later whether

to remodel or construct new facility.

-- Decided to wait on Urban Renewal Agency plans for the lot across from junior high which has been eyed as possible site for new tennis courts.

-- Heard a suggestion by a board committee to remove shrubs from in front of junior high, and plant trees to shade the west classrooms.

Board member Dana Kestenbaum questioned the wisdom of giving students three days suspension for playing hockey. Dodson said each case is left up to the principal involved.

Alcoa Prepares For Winter Fuel Shortage

Though not out of the woods yet, Alcoa's Rockdale Works has taken many steps to avert energy-related production curtailments since last winter's icy blast triggered a fuel shortage which closed two of the plant's eight potlines.

"Any way you slice it, we were caught like most American industries," admitted plant manager Duncan McGregor. "Nobody realized the severity of the petroleum energy shortage until it was too late. But we have spent the past 12 months arming ourselves against surprises this winter that would force production cutbacks and employee layoffs. We can still have problems if a prolonged cold spell occurs, but we're much better prepared now than last year."

Topping the list of precautionary measures is Rockdale Works' strengthened propane gas system.

"On-site propane storage has been enlarged to nearly 100,000 gallons," McGregor said. "It's important because all plant natural gas systems have been converted to use propane. Only about half of our operations could utilize propane last winter. We've also enlarged fuel oil capacity with the purchase of a new in-plant 250,000 gallon tank. Fuel oil can be substituted for both natural gas and propane to operate the plant's boiler system, supplying heat and steam to vital areas."

Rockdale Works reduced chances of having its natural gas supply trimmed by negotiating a higher priority--and more expensive--contract with its supplier, Lone Star Gas Company.

"We've also installed two new 12,000-gallon gasoline storage tanks to supplement existing supplies and put off possible plant rationing," McGregor added. "We've reduced our consumption nearly 15 percent since our allocation was cut 10 percent in November. The key is operating vehicles more efficiently."

Gasoline isn't the only fuel involved in the carefully-planned program designed by the plant's new Energy Committee composed of a cross-section of plant personnel last fall to study, recommend and draft a plan of overall energy conservation.

Many of the committee's suggestions have been implemented and have already curbed energy consumption. Thermostats were lowered to 68 degrees, all electric space heaters have been banned, one-third of all office building lighting has been cut and plant vehicle usage has been curtailed.

Last year's setbacks weren't caused entirely by fuel shortages within plant gates, McGregor reminds. Texas Power & Light Company, which supplies 48 percent of Rockdale Works' power needs, could not operate its natural-gas fired generating facilities at full throttle and was forced to curtail electricity to the plant.

"This year we have much closer communication with TP&L officials about what procedures would enable us to operate more efficiently during similar power cutbacks," explained Jim Lemenzis, electrical engineering and power manager.

DPS To Enforce 55 MPH Limit

Motorists are reminded that Texas highway patrolmen will issue tickets to those who exceed the new 55 mile per hour speed limit which goes into effect at 12:01 Sunday.

The State Highway Commission on Jan. 8 lowered the maximum highway speed limit to 55, effective Sunday, as a gasoline conservation measure. The commission gave road crews 12 days to erect the new speed limit signs.

DPS Director Col. Wilson Speir said highway patrolmen will enforce the limit on all highways which post the new signs. Highways where the speed limits have previously been lower than 55 miles an hour will not be affected.

The legislature in a December special session authorized the commission to regulate the speed limits in order to conserve gasoline. Gov. Dolph Briscoe said the lower limit would save nearly one million gallons of fuel per day in Texas.

Kubiak To Head Convention Committee

Rep. Dan Kubiak of Rockdale has been named chairman of the Constitutional Convention Education Committee, one of only eight major committees set up by the historic convention.

The appointment was made by Speaker Price Daniel, Jr., who earlier was elected president of the convention, and confirmed by a vote of 181 delegates. The delegates include both House members and state Senators.

Kubiak, who is now in his third term in the Legislature and the only Central Texan named to head a Convention committee, had served the past year as chairman of the regular House Education Committee where he gained statewide prominence wrestling with public school education finance problems caused by federal court rulings.

Kubiak predicted that much of the Convention committee's work will center on public school finance problems and he said he will strive to "set up a system of state and local responsibilities insuring that future generations don't suffer the glaring inequities we have now between rich and poor districts."

Schiller To Serve On Vo-Tech Advisory Council

Milton J. Schiller, vice president for development at Texas State Technical Institute, was confirmed this weekend to the Advisory Council for Technical - Vocational Education in Texas.

The council is an advisory group to the State Board of Education.

Governor Dolph Briscoe recommended the appointment of Schiller in an announcement December 14. Members on the council are appointed by the State Board of Education and confirmed by the state senate. Schiller's appointment was made in Austin Saturday by the state board.

The Cameron native has served as manager of the Rio Grande Campus of State Tech at Harlingen. He worked as a technical manpower research assistant when the James Connally Technical Institute was an extension of Texas A&M University.

For six years Schiller was a member of the Texas House of Representatives, and was mayor pro tem of Cameron. He has served as president and a member of the Board of Education of the Cameron Independent School District. He is active in Rotary International the Masonic Lodge.

MILTON SCHILLER

114

With F.M.L.

Congratulations to Countian "Dan" Kubiak on his appointment as chairman of the education committee of the Texas Constitutional Convention, a sequel to the Education Committee chairmanship he held in the Texas House this past session.

Congratulations, likewise, to Cameronite Milton J. Schiller, vice president for development at Waco's Texas State Technical Institute, who is named to the Texas Advisory Council for Technical-Vocational Education. The Council is an advisory group to the State Board of Education.

It is interesting that both men, once or presently state representative, each once defeating the other, have risen in state educational circles.

Milam County and all of Central Texas should have ample opportunity in future education endeavors as these

men amplify public careers in service to technical or broader public education.

Texas writes a constitution only once in about a century, and there is only one technical institute in Texas like TSTI.

114-114-114

Urban Renewal board members are purchasing benches and talking final work on the mall-fountain area.

Construction has begun on the circular fountain, 20 feet in diameter, circled by a walkway.

Low level trees and miniature shrubs will make the walkway a pleasant departure amidst the new parking areas, the new downtown streets.

Things are coming together.

Learning How Upset...

Congress, four committees of it at least, are taking an interest in the oil industry since all the talk of energy shortage emerged and limits became apparent.

Short supply, of course, is occurring in many industries, probably because of price limits the past two or three years as inflation compelled a voluntary system to get lids, to some extent selective.

State of Texas also has said elements of the Legislature would also inquire into supply, storage and pricing.

If the energy crunch is as great as it seems, the oil industry has been caught short of refining facilities in some parts of the country, not likely Texas, and bent backwards

by erratic Arab oil manipulation. The oil industry had big profits in 1973, like most other industries on what was produced or brought in.

But new sources are more expensive to find, old sources are depleting and self-sufficiency is the solution in oil and other energy areas.

But the public is aroused because the two-car or more and oil heated household is common, if not the rule. And once 200 million Americans are rolling and suddenly must slow down or stay in colder houses, they get concerned, even furious.

During the Christmas recess, Congress must have learned how upset people are.

We Of The Club Foot...

We of the Club Foot will be under surveillance and the more forgetful of us "under arrest" after 12:01 a.m. Sunday.

Yes, that's when the 55 m.p.h. speed limit goes into effect on Texas highways. Where once 70 m.p.h. sufficed except in those tempting open spaces, like West Texas, it is now the safer 55.

Experts note that vehicle performance is much better at the lower speed and that driver performance would also improve.

Tires wear longer, engines run smoother, brakes

are more adequate on quick stops, the highway machine of any size is better off at this safer speed.

But it literally has taken an act of Congress to convince us. Free-wheeling spirits will find it difficult to acknowledge, even during an energy crisis. But slower, they may live longer.

That's 12:01 a.m. Sunday, the absolute deadline when the foot lets the accelerator off the floorboard or thereabouts, not many feet from the place popularly identified as "where the rubber meets the road."

"Low Down" FROM THE Congressional Record

By JOE CRUMP

(A Column for Readers Who Haven't Time to
Review the Congressional Record Daily)

ABC-TV EMPLOYEE SPILLS TAPE 'BEANS'

Senator Hugh Scott (Pa.) "...An editorial in (the) Philadelphia Inquirer discusses the cocktail party use of the White House tape recording. This editorial says it all. I offer it for the interest of my colleagues and ask unanimous consent that it be printed in the Record." (The editorial follows):

Tapes aren't "For Fun"
The Watergate syndrome is catching. Now a lawyer for the Ralph Nader organization, following the pattern of those he is charging with high-level misbehavior, has behaved in an inexcusable and perhaps illegal way and then has denounced the media for reporting it.

The lawyer is William Dobrovir, who had possession of the White House tape, which the Nader or-

ganization had been seeking as evidence that President Nixon gave the milk industry a financial bonanza two days after milk lobbyists paid a call on him at the White House.

After fighting subpoenas for several months, the White House finally surrendered a copy of the tape, and Mr. Dobrovir promptly played it at a cocktail party in Georgetown "for fun." ABC News reported the incident Tuesday night, and now let's hear Mr. Dobrovir's explanation:

"I remember saying, 'I've got the tape in my pocket,' and they said 'Let's play it,' and I said 'sure!' He goes on to declare: 'I made a foolish mistake, but consider the ABC story a gross breach of journalistic ethics. No longer can anyone in Washington speak freely

in the presence of the media."

If anyone has committed a "gross breach" of ethics, it is Mr. Dobrovir. The tapes should be made public — confidentiality is no excuse for concealing evidence of alleged crimes — but by due process of law and in appropriate forums.

We don't think a Georgetown cocktail party is such a forum. We don't think Mr. Dobrovir has any further place on the Nader team.

CRUMP'S GRASS ROOTS COMMENT

The Watergate break-in and subsequent disclosures are shocking. The guilty should be prosecuted. But the present situation is taking on the air of a ring circus.

Dateline Austin

Lawmaker Delegates Get Off To A Bumpy Start

Lawmaker delegates to Texas' first Constitutional Convention since 1875 got off to a bumpy start last week.

They lost little time in election of House Speaker Price Daniel Jr. as "president" but they wrangled for two and a half days over procedural rules.

The rules fight appeared to center largely on concern of some delegates over yielding too much authority to the presiding officer and professional staff.

Some observers feared the preliminary wrangles indicated a minority of delegates really do not want a new constitution at all.

Some were sniping at Daniel, and others were following legislative custom and trying to leave their imprint on the rulebook of a historic event.

Top officials, including Gov. Dolph Briscoe, Lt. Gov. Bill Hobby and Daniel, offered words of encouragement to delegates and predictions of success.

Plain citizens are supposed to get their chance to express their views to the delegates when committee hearings get underway, probably this week.

Convention planners hoped to run off a fast-paced 81-day schedule before the spring primary election, but hope for keeping that pace dimmed with the drawn-out rules debate. Mood of delegates appeared to be to take all the time they want. They can work until July 31 if they insist on it.

SPEED LIMIT CUT — Starting January 20 at 12:01 a.m., the speed limit will be 55 — not 70 — miles per hour.

Governor Briscoe issued the official proclamation hours after the Texas Highway Commission approved lowering the limit in line with federal directive as a fuel-saving measure.

President Nixon January 2 signed a new law providing for withholding of federal highway aid funds in those states which refuse to establish a 55 mph limit in 60 days.

An earlier effort by the Commission to reduce the limit was rejected by Atty. Gen. John Hill, who said special legislative authorization was necessary. Briscoe then called the legislature into session and asked for a new law giving the Highway Commission power to lower the limit with his concurrence. Lawmakers granted that authority last month.

Efforts will be made to protect those who get early speeding tickets under the law from jacked-up insurance premiums as a result.

POLITICIANS IN, OUT — Some state office holders bowed out of and some jumped into statewide races during early January.

Comptroller Robert Calvert, 81, announced he would retire at the end of his present term. And Speaker Daniel indicated it is unlikely he will

enter any state race.

Meanwhile, Railroad Commissioner Mack Wallace of Athens, appointed last year by Governor Briscoe to fill a vacancy, said he is seeking an elective term.

State Sen. Jim Wallace of Houston sounded like a likely

contender for Calvert's job, as did Hugh Edburg, head of the comptroller's accounting, revenue and statistics section. Former Secretary of State Bob Bullock of Austin has been campaigning for comptroller since last summer.

OLD PHILOSOPHER

Dear editor:

I was going through the annual chore of cleaning off my desk preparing for a new year and ran across a few paragraphs I might as well get rid of on the grounds of the old saying, "Waste not, Want not," which was true up till about six months ago when nearly everything, whether we'd wasted it or not, ran short, including even bailing wire and I have yet to hear of any farmer ever wasting bailing wire.

Anyway, here are a few scraps I saved from my wastebasket:

Now that daylight saving time is in effect some people are worried about kids going to school in the dark, whereas maybe they ought to be worried about kids coming out of school in the dark.

Speaking of old sayings, I have often wondered, you reckon the one about "not putting all your eggs in one basket" was thought up by a basket maker?

Language has to be handled carefully not only to get your point over but to keep from getting it over. For example, how far would that famous hamburger chain get if instead of advertising its famous "Quarter pounder" it said the same thing by calling it a "Four ounce-er"?

By the way, in case you have any reader who is slow on the up-take and probably borrows a copy of The Herald, there are 16 ounces in a pound, even of hamburger meat.

And then there was the Scrooge-type man who, on getting a picture of his out-

of-state grandchildren for Christmas, said "Hmmm... How's that saying go... One picture is worth a thousand kids."

You can't always believe what you read. On the other hand, if you read just what you believe, you won't use much electricity.

Yours faithfully,
J.A.

Patmans Host Reception

Senator and Mrs. Bill Patman hosted a gala reception Tuesday, January 8, at the State Capitol preceding the opening of the 1974 Constitutional Convention.

The purpose of the reception was to honor friends and constituents from the 18th senatorial district who had come to Austin to participate in the opening day ceremonies of the Convention, but many other friends of the Patmans, including a number of Senator Patman's colleagues in both the House and Senate, stopped by to have a cup of coffee and visit.

"We were extremely pleased that so many district friends were able to come in spite of the bad weather and poor travelling conditions," said Senator Patman. "For those who couldn't make it this time, we hope you will pay us a visit at some other point during the session ahead."

"My office door is always open and the welcome mat always out to constituents from the 18th district. We'll be delighted to welcome you any time you can come," he said.

Briscoe Lauds Texas Agriculture

"Agriculture is really the great hope of our country. Not only does it feed and clothe our people, but agriculture has become the one tool with which we can compete most efficiently in foreign markets. This is vital if we continue to import oil to meet our energy needs."

"And agricultural research must continue so that this state and our nation can continue to produce food and fiber products more efficiently than any other country in the world," said Governor Dolph Briscoe in an address Tuesday afternoon at the annual conference of the Texas Agricultural Experiment Station on the Texas A&M University campus.

"We have the potential of making Texas number one in agriculture in the United States," Briscoe told the gathering of some 600 research scientists of the state's agricultural research agency. "With your distinctive service and the support of the other state agencies, we can attain this goal."

In lauding the work of agricultural research in Texas, the governor cited the Screwworm Eradication Program and the development of new forage grasses that are adapted to various areas of the state as two major achievements in

recent years that have been a tremendous boost to the agricultural industry of this state.

"No one would deny that Texas agriculture and its associated industries have been the basis for every change -- the new varieties of cotton, rice, vegetables and grain sorghums, modern fertilization practices, new equipment and processes, new management and cultural practices, new livestock rations and feeding systems."

As only one measure of the value of agricultural research in Texas, gross farm income increased almost 50 per cent between 1962 and 1972, a jump of more than \$1.1 billion," Briscoe pointed out.

"Texas agriculture will become more important in many, many ways, one of which will be in meeting the worldwide demand for agricultural products. Therefore, we must continue with our research programs. We cannot stand still," Briscoe emphasized.

"You have done a great job of bringing us where we are today. And we must continue to work together for this great state and nation," Briscoe challenged those in attendance.

Page 4 Cameron, Texas, Herald, January 17, 1974

Ag Research Needs Attention

American agriculture is enjoying a new respectability now that food shortages are possible, but agricultural research is still begging for attention.

Such was the central theme of a talk here Friday by Dr. H. O. Kunkel, dean of the A&M University College of Agriculture and the final speaker for the Texas Agricultural Experiment station annual conference.

The dean emphasized that the federal government has, or should have, a definite commitment in supporting agricultural research, an obligation he termed "as critical as that of national defense."

He said food and fiber studies have not gained the favorable image now held by agriculture in general. Some observers believe that research actually is "a little immoral."

"We hear glowing reports on American agriculture, but little about research. The White House has put food near the top of the national priority list, yet there is still no great amount of funds for agricultural research," Kunkel pointed out.

On a national basis, federal funds for research are hard to come by in a time when new and better ways of food production and marketing are urgently needed, the speaker said.

"Agricultural experiment stations and agricultural extension services in each state form a network to which the federal government has a commitment -- a commitment that is as critical as that of national defense," Kunkel said.

The dean then suggested how he believes agricultural research can improve its image in the eyes of the pub-

lic and the state and national governments.

Agricultural research should view itself with "honesty" and show a minimum of duplication. The allegation of duplication has hindered funding more than any other reason, he said.

Research in agriculture

Angus Show Planned In Fort Worth

Angus herds from 21 states and one foreign country have entered 240-head of breeding cattle in the \$20,000 National Centennial Angus Show scheduled for Fort Worth, reports Lloyd D. Miller, executive secretary of the American Angus Association. The show, one of the 1st in 1974, is being held in conjunction with the Southwest Exposition and Fat Stock Show and is the first national show sponsored by the Association in recent years.

Classes for the 122 females and 118 bulls will be judged under the Angus Futurity System in which the break for each class is made prior to the show.

No class will have more than 15 head and animals in each class will be close to each other in age. First prize in each class is \$175 and the remainder of the prize money will be allocated according to entry numbers.

The show will be judged under the standard American Angus Association three man system. Selected to place the cattle were Robert Scarth, University of Georgia, Athens; Dillary Bryce, Corvallis, Oregon; and Dave Pingrey, Black Bull Cattle Company, Benton, Mississippi.

must be a hard-headed science. At the same time, it must be a "good science," one that benefits people. Economic and sociological effects of these activities should be considered.

Kunkel called upon Experiment Station personnel to honestly review what they are doing now, then go in new directions and test new, innovative ideas.

Finally, research should present agricultural needs in the overall mold of national goals, the dean said.

Brucellosis Program Starts Here

By Bill McCutchen

It is my understanding that the Texas Brucellosis Eradication Program originally scheduled to start in October 1973 will be initiated January 14, 1974. This new Texas program is designed to locate infection, contain infection and assist the owner of the infected herd in eliminating the disease.

The program works in this manner. Infection will be located by three different methods:

1. Brucellosis Ring Test (BRT) of dairy herds
2. Market cattle test (MCT) of all breeding cattle slaughtered
3. Blood test of all breeding cattle exchanging ownership

Infection will be contained by quarantining all infected and exposed cattle and limiting their movement to slaughter only. Blood test procedures will be utilized to assist owners of infected herds to free their cattle of brucellosis.

When ownership of breeding cattle is exchanged the animals must be blood tested at the owner's expense. When infection is found, the herds of origin will be placed under quarantine and tested at State Federal Cooperative Program expense. The owner of an infected herd may select any accredited veterinarian to do the testing when it is at his expense.

The object of this program is of course to eliminate this disease from Texas. Thirty-one states have already reached the brucellosis free status, and so the pressure is now on Texas to reach this status in order for interstate shipments to continue.

People have believed for thousands of years that a charm worn around their necks protected them from witchcraft, the evil eye and other misfortunes.

A Weekly Report Of Agri-Business News

Farmcast

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

First Time In Four Months... Texas Wheat Crop Up and Down... Hog Numbers Decline

For the first time in four months, Texas farm prices have shown an increase. The all-farm products index is now 42 per cent above a year ago, and one per cent above a month ago.

The livestock and livestock products, however, was down one per cent from last month, but is 17 per cent above a year ago. Beef cattle prices have declined 30 per cent from August levels. However, retail meat prices have declined less than 10 per cent.

For Texas, hog prices as of Dec 15 averaged \$38.30, down \$1.60 from November. Beef cattle averaged \$38.20, down 90 cents from a month ago. Hog prices are 10 cents above beef prices for the month. Calf prices at \$47 were down \$2.90 from a month ago. Sheep prices at \$16.30 per hundred-weight were down 30 cents from a month ago. Lamb prices were up \$2 from a month ago.

Beef cattle, calves and lambs are below effective parity levels.

Crop prices show that wheat was up 37 cents per bushel from a month ago; corn is up 16 cents; oats are 3 cents per bushel higher; grain sorghum is 24 cents higher. Grain sorghum is currently 14 cents under effective parity.

Wool and mohair prices are unchanged from a month ago. Broilers are also unchanged at 19 cents. Turkey prices declined 2 cents per pound and egg prices advanced 6.2 cents per dozen.

With the modest increase in farm prices, some economists were predicting higher food prices.

Hogs and pigs in Texas at the end of 1973 totaled 1,050,000 head, down 9 per cent from a year ago. Hogs kept for breeding purposes numbered 163,000; there were 887,000 market hogs and pigs.

From now through May, Texas hog farmers intend to farrow 103,000 sows, 3 per cent above the previous year.

Nationwide, hog and pig numbers are up 3 per cent from a year ago. The total pig crop for the year was down 3 per cent.

Hog producers intend to farrow 6,500,000 sows through May across the nation. This would be an increase of less than 1 per cent from a year ago.

TEXAS winter wheat acreage is up, but expected crop is down. The Texas Crop and Livestock Reporting

Service notes that acreage of 1974 winter wheat is 5,600,000 acres. This is 22 per cent above a year ago and 38 per cent more than in 1972.

But because of dry weather, yield is expected at 78,400,000 bushels. This compares with 98,600,000 bushels in 1973.

Nationwide, winter wheat acreage is 18 per cent higher than a year ago. It is the largest acreage since the 1967 wheat acreage. The estimate nationwide is 19 per cent above 1973, the previous record.

COMMERCIAL slaughter plants in Texas during November produced 183,000,000 pounds of red meat, which is a decrease of 7 per cent from the previous month and 6 per cent under the 1972 production.

Cattle slaughter was 19,000 under a month ago; calves killed were 1,100 below the previous month; hog slaughter was 14,000 below last month. Sheep and lambs killed were 37,000 below last month.

A FINAL reminder: If you have received a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service, please fill it out as accurately as possible and return it at once. The surveys will be used to compile statistics about Texas agriculture, the State's most basic industry.

Ag Conference Set At Texas A&M

Livestock owners and animal agriculturists from throughout Texas and several Latin American countries are expected to participate in the first Texas Animal Agriculture Conference, January 21-24 at Texas A&M University.

The conference will open with the Latin American Animal Agriculture Symposium January 21. It will be followed by five short courses on beef cattle, swine, dairy cattle, horses, forages and pastures on Tuesday and Wednesday. The final day will feature a cattlemen's tour.

Conference sessions will be in the J. Earl Rudder Center on the Texas A&M campus.

CATTLE DRIVES

In the great 19th-century cattle drives, millions of longhorns walked out of Texas on three-month journeys to Kansas rail terminals, National Geographic says.

Question:

Is Lone Star doing everything it can to hold down costs?

Answer:

Yes!

We're operating more efficiently than ever before. But our costs are going up none the less... just like yours.

For instance, the interest rates on money we have to borrow for constructing new gas supply systems have increased dramatically. These rates have recently been at all time highs.

Within the last 18 months, we have invested nearly \$100 million:

- to build a large diameter, 400-mile pipeline from West Texas to the Dallas-Ft. Worth area,
- for other facilities along this pipeline,
- to attach major new reserves and
- to pay for well drilling by producers... all for the purpose of assuring continuing natural gas supplies to our customers.

These investments don't even include the cost of all the gas we must buy to fill the line. In 1969, natural gas

cost us about 19 cents per thousand cubic feet.

Recently we paid more than 85 cents for major new supplies. And the price is still rising.

Costs like these are the price Lone Star must pay for your continuing natural gas supplies. It's important that you understand our need for adequate rates so we can continue to deliver clean gas energy to your home for winters to come.

We're doing everything possible to hold down controllable costs. But even with gradual rate increases, natural gas from Lone Star will still be your most economical and efficient non-polluting fuel.

Lone Star Gas

Clean Energy for Today and Tomorrow

CORRUGATED STEEL DRAINAGE PIPE

It's Strong & Easy to Install. Uses include road culverts, ditch crossovers, stock water supply lines, and driveways. Durable zinc-coated corrugated steel pipe is available in diameters 6 to 120 inches. Shipment can be made in 3 days notice.

INSIDE INFORMATION.....

The 1974 Plymouth satellites offer you two ways to get mid-size value without sacrificing family-size room. The satellite custom sedan and the satellite coupe.

Some basic features that make satellites something special are the torsion-quiet ride, the electronic ignition system which helps give quick starts in any kind of weather and with low tune-up costs... as there aren't any points or condensers to replace, fade-resistant front disc brakes, torsion-bar suspension, unit-body construction for a rigid body structure, and, new for '74 a windshield washer system with nozzles attached to each windshield wiper arm. Each plastic nozzle has four outlets which put streams (rather than a spray) of water on the glass to aid vision during the first strokes of the wash cycle. Because the nozzles are close to the glass, wind has a minimal effect on their operation.

COME GET YOUR SATELLITE TODAY... WE'VE GOT 'EM IN STOCK AND OUR INVENTORY IS NOT AFFECTED BY THE RECENT PRICE INCREASES.

It's all there in our lowest priced satellite model.

And don't forget, you can add to the enjoyment of owning a satellite with some comfort and convenience options like air conditioning... torqueflite automatic transmission... automatic speed control... and power steering. They'll make satellite ownership even more pleasurable and help increase the value of the car at a trade-in time.

It's not necessary for you to sacrifice comfort during our temporary fuel crisis. Adopt good and economical driving habits, like letting your engine warm up before you drive, and you won't be swayed by the idea that you will have to buy a small car.

Film Capitalizes On Marilyn Monroe Legend

By Bruce Russell

HOLLYWOOD
Reuter - Capitalizing on keen public interest in the legend of Marilyn Monroe, a Hollywood film company is rushing out a film which closely parallels the story of her life and tragic death. The film contains a thinly-

disguised account of her marriages with baseball star Joe Dimaggio, author Arthur Miller and her alleged affair with the late Senator Robert Kennedy, as related in the latest biography of her by Pulitzer Prize winning author Norman Mailer.

The film "The Sex Symbol," casting singer Con-

nie Stevens as Miss Monroe, follows the success of Mailer's controversial book entitled "Marilyn."

Mailer has come under heavy fire for the amount of speculation contained in the book, and he has been sued by the author of another Marilyn Monroe biography for alleged unauthorized use

of copyrighted material. The Hollywood Women's Press Club, made up of the film city's woman reporters and publicists, reinstated its "Sour Apple" award in December to give it to Mailer.

The ladies bitterly criticized him for "cashing in on the tragedy of a great star with a cruelly unauthentic version of her life story."

Replying personally to the lawsuit filed by an earlier biographer Maurice Zolotow, Mailer said there had been adequate attribution to Zolotow in his book and pay-

ment had been made for use of copyrighted material. A settlement is now being sought out of court.

The Producers of "The Sex Symbol" have attempted to head off both law suits and charges of sensationalizing by making their film with fictitious names.

But Miss Stevens, looking uncannily like Marilyn with a cloud of curled blonde hair, pointed nose and chin and large round golden earrings, makes no effort to hide who she is playing.

Miss Monroe became one of Hollywood's great tragic legends in 1962 when she

ended a stormy career as a sex star by taking an overdose of barbiturates.

"The Sex Symbol" is being made as a television film but Miss Stevens says it will possibly be released as a commercial movie.

"Husband number one" is played by young actor Bill Smith cast as a professional footballer, and "husband number two" by character actor James Olson, playing a painter.

The "Robert Kennedy" role has been given to a close acquaintance of Miss

Monroe, Don Murray, who played opposite her in "Bus Stop."

Murray says he knew Miss Monroe at what was probably the happiest time of her life. "She was behaving herself on the set and working well. It was right before she married Miller and the bloom of love was still there."

Of Miss Stevens' portrayal he says: "Connie has got very close indeed to the character. The first day I saw her do a scene I was struck by the fact she had so many

mannerisms of Marilyn--the way she moved her body and a lot of her expressions."

Teased at school because she looked so much like Miss Monroe, Miss Stevens says she has the figure and the same voice as the tragic star.

A mother of two small daughters, she arranges her acting and singing commitments to spend as much time as possible with them and they travel with her on tour.

Engagement Announced
For Morris McMahan

Mr. and Mrs. W. F. Morris of Lometa have announced the engagement of their daughter, Keryn Raye, to Michael Foy McMahan of Lometa.

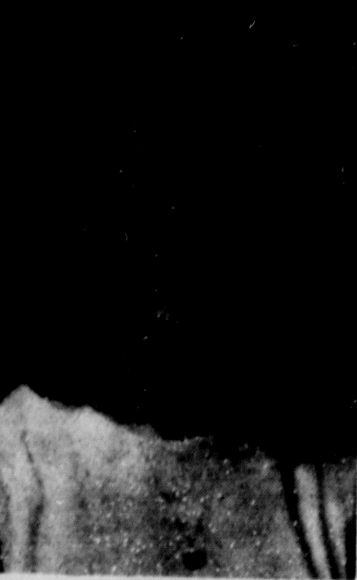

The bride-elect is the granddaughter of Mr. and Mrs. R. A. Plentl of Cameron and Mr. and Mrs. T. B. Morris, Sr. of Temple. Her great-grandfather is Mr. O. L. Hightower of Cameron.

Miss Morris attended SW-TSU at San Marcos and graduated from the University of Texas at Austin with a Bachelor of Science in Education. She is now employed as a mathematics teacher in the Post Independent School District.

Mr. McMahan is a candidate for graduation in August from the University of Texas at Austin, majoring in Pharmacy. He is employed with Bray and Jordan Pharmacy in Austin.

A June 8 wedding is planned at the First United Methodist Church in Lometa.

Miss Morris attended SW-TSU at San Marcos and graduated from the University of Texas at Austin with a Bachelor of Science in Education.

MISS MORRIS

Club Program On Ecology

The Pleasure and Profit Club met at the home of Mrs. Jimmie Bledsoe Thursday, January 10 at 4 p.m. The hostess, assisted by her daughter, Janene, served punch and coffee, chicken salad, party crackers, and mints to nine members.

The program for the meeting was on the theme of Ecology and was presented by Mrs. Bledsoe. Using materials which usually are thrown away, many attractive and useful articles can be made to decorate the home and serve in a useful function. Among the items shown was a colorful patchwork quilt padded with discarded hosiery, a wastepaper basket made from "junk mail", empty potato chip can, and bits of electric wire, and a doll made from an empty vegetable oil bottle.

Members brought items made from discarded bottles, boxes, plastic containers, bottle tops, waste paper, and items made from rocks and scraps of wood.

DKG Program Looks To 'New Perspectives'

Mrs. Virginia Stem of Marlin was leader of the program for Beta Nu Chapter of Delta Kappa Gamma, Saturday, January 12, at Spring Lake Club near Rosebud.

Mrs. Alma Doss of Rockdale, chapter president, heard the report of Nominations Committee by its chairman Mrs. Lillian Roman of Lott. Next year's officers will be: Mrs. Frances Hensley of Cameron, president; Mrs. Patsy Nance of Cameron, first vice-president; Mrs. Margaret Gray of Marlin, second vice-president; Mrs. Martha Royal of Rosebud, recording secretary; and Mrs. Elizabeth Holloway of Rockdale, corresponding secretary.

Mrs. Byron Stubbs of Rosebud presented the Chapter President's pin to Mrs. Doss for her work as president for her two-year term.

The next meeting will be at Cameron, February 2. Mrs. Kathryn Piper of Rosebud will lead the seminar on "New Insights."

Members of the seminar are Mesdames Carol Souther and Olive Willi of Rosebud and Frances Arnold of Chilton.

for good to the world." She concluded with, "Let's do all we can to help this generation be a good generation."

Members of the seminar are Mesdames Carol Souther and Olive Willi of Rosebud and Frances Arnold of Chilton.

Mrs. Louise Tate of Marlin discussed the "Increased Leisure Time for all ages. Longer vacations for all and early retirement for older people increase the need for many kinds of activity she said. "Formerly leisure time meant time for rest but not any more. This presents a challenge to the field of education to provide worthwhile programs for people with time on their hands. It is an opportunity

St. Monica Ladies Elect Officers

Mrs. Eugene Mitchan was elected president of the St. Monica Christian Ladies Society at their January 8 meeting.

Other officers elected were Mrs. Charles Riola, vice president, Mrs. Henry Litzman, secretary and Mrs. Clarence Hanel, treasurer. During the business meeting Mrs. Frances Sheguit reported on the Bereavement Committee work and members discussed sewing layettes to be shipped to South Vietnam before April.

It was also reported that a birthday party for patients at the nursing homes will be given this month.

Mark Meyer has recently accepted a management position with Radio Station KVOC in Casper, Wyoming. The son of Mr. and Mrs. Alvin Meyer of Cameron, he was with Radio Station KPRC, Houston, for three years prior to accepting the Wyoming post.

Austin Ceremony Unites Couple

A double ring candlelight ceremony united Virginia Gayle Harper and Fritz Ernest Pratt at 3 p.m. Saturday in the Cameron Road Baptist Church of Austin. The Rev. Ronnie Marley officiated before an altar flanked by candleabra and decorated with large arrangements of blue and white gladiolas and carnations. Family pews were marked with large velvet ribbons.

Wedding music was presented by Mrs. Ronnie Marley, Miss Kathy Price and Mrs. Bill Davis.

The bride, daughter of Mr. and Mrs. William O. Harper of Cameron, attended Temple Junior College where she was a member of the Business Ad. Club, Student Council and Phi Theta Kappa. Mr. Pratt, son of Mr. and Mrs. Wesley Pratt of Cameron, is a graduate of Yoe High School and attended Howard Payne and Baylor University.

Given in marriage by her father, the bride wore a formal A-line gown of velvet featuring a low scooped neck, empire waist and lantern sleeves, and which was designed and created by the bride. The cathedral Spanish Mantilla was edged in lace and was attached under a chapel length veil of illusion to a Spanish crown covered with lace and accented with pearls.

Matron of honor was Mrs. Larry Jungmann of Austin and maid of honor was Miss Janet Pyle of Austin. They wore gowns of royal blue velvet designed similar to the bride's and carried bouquets in shades of blue and white, the bride's chosen colors.

Craig Harper, brother of the bride was best man and Phil Kinrich of Michigan was groomsman.

Ushers were Charlie Angell of Cameron and David

Angell of Temple. A rehearsal dinner was hosted by the grooms parents in Austin on Friday night at which the bride and groom exchanged gifts and presented gifts to their attendants.

A reception was held in the church recreation building following the ceremony. Members of the houseparty

were Miss Ramona Cummings of Cameron, Mrs. Charles Evan of Cameron, Mrs. David Angell of Temple and Mrs. Bobby Corrigan of Austin.

After a wedding trip to New Orleans, the couple will make their home in Biloxi, Mississippi where the groom is stationed in the U. S. Air Force.

MRS. FRITZ ERNEST PRATT

Festive Beef Stew For Party Fare

California Beef Stew

3 bacon slices, cut into pieces
2 pounds beef stew meat
1 cup dry red wine
1 bouillon cube
2 garlic cloves, minced
1 tablespoon instant minced onion
2 teaspoons salt

1/4 teaspoon thyme leaves
1 strip orange peel
18 small white onions
3/4 pound small mushrooms
2 tablespoons cornstarch
1 10-ounce package frozen peas
1/2 cup pitted ripe olives, drained

About 3 hours before serving:

In large Dutch oven over medium-high heat, fry bacon until crisp; push bacon bits to side of pan. To drippings in pan, add stew meat and cook until well browned. Stir in 1 cup water, wine and next 6 ingredients; heat to boiling. Reduce heat to low; cover and simmer 2 1/2 hours or until meat is fork-tender, stirring occasionally. Meanwhile, in covered, medium saucepan over high heat, in about 1 inch boiling salted water, cook onions 10 minutes; add mushrooms; cook 5 more minutes; drain.

In small bowl, mix cornstarch and 3 tablespoons water until blended; stir into stew and cook over medium heat, stirring, until thickened. Add onions, mushrooms, frozen peas and olives; cover and cook 10 minutes. Makes 6 to 8 servings.

From Gause

By Mrs. Wanda Lee

Mr. and Mrs. Wiley Kirk were in Rockdale Wednesday to attend the funeral of her brother-in-law, Mr. Jim Jones.

Mr. and Mrs. Ray Payne and five children of Danbury spent last Saturday night with Mr. and Mrs. Koye Cass and Ray.

Mr. and Mrs. Louie Lange were in Houston this past week for him to have a medical checkup.

Mrs. J. T. Todd spent several days this past week in Scott and White Hospital in Temple for medical tests.

Mr. and Mrs. Jim Lee and children of Houston spent the weekend with Mr. and Mrs. Wayne Lee and children.

Mrs. Lola Williams celebrated her birthday Friday, January 11, and was surprised that afternoon with the arrival of a dozen red roses from her son, Bud and family. Her mother, Mrs. Bessie Matthews is spending this month with her.

Recent visitors with Mr. and Mrs. J. A. Young and Mr. and Mrs. Claude Garrison included Mrs. Pauline Edwards, Mrs. Jessie Hancock and two children all of Waco and Mrs. Opal Young and Mike of Cameron.

Mrs. and Mr. J. T. Shelton visited Mrs. John Brock who is a patient in John Community Hospital Saturday.

Sunday guests of Mrs. Alice Rhodes were Curtis Rhodes of Temple, Mrs. Minnie Lee Collier and Mrs. Hiram Walker.

Dennis Shelton spent Sunday with his parents, Mr. and Mrs. J. T. Shelton.

Recent guests of Miss Agnes Rinn were Mrs. Malitta Galler of Houston and her son, Charles Galler of Springs. They all visited Mrs.

Fort Worth Parade For Horse Set

Gas buggies give way to hay burners at 2 p.m. Friday, Jan. 25, in downtown Fort Worth as the "World's Largest All-Western Parade" signals the beginning of the 78th annual Southwestern Exposition and Fat Stock Show, Jan. 25 through Feb. 3.

"Our parade, a tradition since the early days, maintains the heritage of the frontier west by requiring entries to be on horse-back on horse-drawn wagons or other vehicles or on foot," said Tom B. Saunders, Stock Show vice president and parade chairman. "We do not allow any motorized vehicles in the lineup."

Saunders stressed there is a place for anyone in the parade. Last year more than 7,000 participated in the annual trek. An estimated 100,000 persons lined the streets to witness the parade.

Mrs. Beverly Peterson, Stock Show special events director, has mailed parade information to previous individuals and groups who participated in previous years. Anyone desiring to be in the parade should contact Mrs. Peterson for assembly instructions.

Lilly Janes in Rosebud.

Mrs. Mary Brown of Cameron, who is on the sick list, is staying with her daughter, Mrs. Jerry Harbuz for a while.

Obituaries

Heisch

Ralph Heisch, 75, formerly of San Gabriel, died at a Bellville hospital Sunday morning after a short illness.

Funeral was at 2 p.m. Monday at Phillips and Luckey Funeral Home in Rockdale, the Rev. Bob Wimberly officiating. Burial was in the IOOF Cemetery in Rockdale.

Mr. Heisch was born in Granger. He was a retired farmer and rancher. He was married to Charice Carroll in 1929 in Rockdale. He was a member of the San Gabriel Baptist Church.

Surviving are his wife; a son, Ralph Paul Heisch of Bellville; a brother, Cruso Heisch of Galveston; and two grandchildren, Miss Linda Gale Heisch and Dale Heisch, both of Bellville.

Pallbearers were Richard Heine, James Terry, Donny Heine, Tas McBurnett, Hugo Linke and Jim Stewart.

Manley

Mrs. Margaret B. Manley 85, formerly of Minerva, died early Sunday in a Deer Park nursing home after a long illness.

Funeral was at 2 p.m. Monday at Green Funeral Home, the Rev. William Benesh officiating. Burial was in the Milano Cemetery.

Mrs. Manley was a retired rural school teacher. She taught at several schools in Milam County.

Surviving are a son, Pat Manley of Deer Park; and several nieces and nephews.

Johnson

To Speak

At Banquet

Glendon Johnson, president and chief executive officer of American National Financial Corporation and American National Insurance Company of Galveston will be guest speaker of the Heart O' Texas Council, Boy Scouts of America Annual Council Recognition Banquet.

He is a graduate of Harvard Law School and is a contributor to a number of law review journals, the Chartered Life Underwriters Journal, and Heubner Foundation Lecture Series.

He has served as a company commander of infantry, European Theater, during World War II and belongs to several bar associations and legal societies.

Johnson, among the many duties he has, is also president of Area III, South Central Region, Boy Scouts of America.

Another highlight of the Annual Dinner will be the presentation of the Silver Beaver Awards (to men) and the Silver Fawn (to women) for their outstanding work in Scouting. Tickets are available until January 17 at the Council Service Center at \$4 each.

Like a good neighbor, State Farm is there.

Swift

Charne R. Swift, 80, of Cameron died Monday at 7:50 p.m. in a local nursing home. He was born March 20, 1893, in Caddo and lived in Cameron since 1913. He was a retired barber.

Mr. Swift was a member of Cameron Odd Fellows Lodge and San Andres Masonic Lodge 170 for over 50 years. He was a member of the Methodist Church.

Funeral service was held at 1:30 p.m. Wednesday at Marek-Burns-Laywell Funeral Home, the Rev. Perry Richardson officiating. Burial was in Oak Hill Cemetery.

Surviving are his wife, Mrs. Ida B. Swift of Cameron; two daughters, Mrs. Melma Meyer of Cameron and Mrs. Helen Fuller of Dallas; one brother, Edgar Swift of Klamoth Falls, Ore.; two sisters, Mrs. Kattie Meredith of Strawn and Mrs. Ora Mae Hittson of Eastland; three grandchildren and three great grandchildren.

McCarroll

Lewis McCarroll Sr., father of Mrs. John Henderson Jr. of Cameron, died Monday night in a Rusk hospital after a long illness.

Funeral services were at 4 p.m. Wednesday at the First Presbyterian Church of Rusk.

A native of Cherokee County, Mr. McCarroll had been in the automobile business in Rusk for many years.

Survivors include his wife of Rusk, 3 daughters, Mrs. John B. Henderson Jr. of Cameron, Mrs. John Irwin of Gilmer, Texas, Miss Susan McCarroll of Rusk; 1 son, Lewis McCarroll, Jr. of Austin; 8 grandchildren.

New System Set Up For Pond Fish

Texas landowners who have farm ponds in need of fish will find the Parks and Wildlife Department operating under a new, computerized system of distributing fish this year to private waters.

The department has a new application card which is now available from all its regional offices and the Austin headquarters. They will soon be distributed to game wardens.

Parks and Wildlife Department hatchery coordinator Ted Lowman says that the cutoffs have been changed for receiving completed applications at the Austin offices.

"This year," said Lowman, "we moved up the application date for largemouth bass to Jan. 1. Since the new program is in its first year and just underway, we plan to consider all applications for black bass which are received between now and Mar. 15."

Applications for bass received after Mar. 15 will be held until next year as with applications for sunfish and channel catfish which are received after June 1.

"Since the fish distribution program is now computerized," said Lowman, "it is important that a pondowner fill out all information blanks on the application card, otherwise the card will be void and no fish will be delivered."

Three species of native fish are available at no charge to pondowners: largemouth bass, channel catfish and sunfish.

The bass are delivered between April and July 1. Catfish and sunfish are delivered between Aug. 15 and Nov. 1.

According to Lowman, the major criterion for receiving fish is that a pond must have no existing fish population.

Milano Downed By Troy, 112-84

Despite a 26 point scoring effort by Jimmy Mills, the Milano Eagles were defeated by the Troy Trojans, 112-84. In the girls game Troy again came out on top with a 66-45 victory.

In the boys game, Williams scored 18 points, Standard 14, Wilson 8, Pack 8, Gunnels 6, Willingham 2, and David Gunnels 2.

In the girls game, Davenport was the high pointer with 18, Kornegay had 17, Davidson 8, and Knight 4.

In earlier action, Milano defeated Buckholts by a close 49-46 score in the boys game, and squeezed another close one out as the girls beat Buckholts, 37-35.

In boys action against Buckholts, Bruce Williams was high pointer for the Eagles with 22, and Carl Tomascik tossed in 16 to lead the Badgers.

In girls action, Davidson scored 18 to lead Milano, and McNeil led Buckholts with 16.

Yoemen Meet Belton Friday

Rebounding off a 40-31 victory over a strong Copperas Cove team, Coach Max Graham and his Yoe cagers will travel to Belton Friday night to take on the Tigers in District 12-AAA basketball action.

The Yoemen will have their hands full as they battle the 1-1 Tigers, who gained their district record by defeating Lampasas by a 78-45 score and losing to Gatesville 59-57.

In the Gatesville game, Belton lost it in final minutes of play as the Hornets rallied for 18 points to the Tigers 11 in the fourth quarter. Belton owned a 5 point lead going into the final period.

In the Lampasas meeting, Belton was in command the entire game. At the end of the first quarter the Tigers had a 20-6 lead, a 39 -19 lead at halftime, and a 62-29 lead the end of the third quarter.

The Yoemen have met both of these opponents also. They lost to Gatesville, 58-56, and beat Lampasas 70-34.

The Gatesville game went almost the same way for the Yoemen as it did for the Hornets. Cameron owned a 10 point lead going into the fourth quarter, and lost it as Gatesville scored 25 points to Cameron's 13.

The Lampasas game was also similar to the Belton vs. Lampasas game. As the score indicates, it was Cameron all the way.

In their last outing, the yoemen captured a 40-31 victory over the Copperas Cove Bulldogs. Once again it was Cameron all the way until the fourth quarter when Cove outscored Cameron 11-1.

The Yoemen were fortunate enough to have a 19 point lead going into last quarter play, and Coves effort fell short of its mark.

Sports -Murray-Go-Round

By Tom Murray
QUICKIES:

Insiders say Tom Woods, the All-State Angleton half-back, will sign with Tech... Greg Alexander, the All-State split-end off that Cinderella Angleton team is supposedly going to Arkansas while Quarterback Kent Lawson has eyes for Baylor.

Tyler's All-State Fullback Earl (The Pearl) Campbell, Texas' best power back ever, according to many, may just wind up at Texas. If he does not, Tyler sources say, it won't be because Darrell Royal is not recruiting him enthusiastically... Without a doubt, the Aggies' Emory Ballard has out-recruited all other SWC coaches the past two years. If he can sell another such crop of high school stars

on coming to Aggieland and competing with the beef already there, he's some kind of salesman. And, some kind of winner!

NOT LIKE ROYAL:

They say Royal, in recruiting Campbell, is telling a boy for the first time he CAN make the Longhorn starting team as a freshman. That is because Royal's Top-of-the Wishbone goes, Roosevelt Leaks, Roosevelt Leaks and Roosevelt Leaks... Alvin Bowers, the Aggies' Junior Fullback-to-be can become another Leaks as that young Cadet offensive line matures.

Bowl game results should not be used to determine final spots in the national collegiate polls. Why? Because there's no way for a

The presentation was held to benefit the Ben Milam Gun Club, newly organized club for youthful shooters. Proceeds will go toward buying ammunition and targets for the club.

TIPS FOR OUTDOORSMEN
by Vern Sanford

Preparedness Is A Requisite Of Every Good Bass Fisherman

"On your mark—get set—GO!" That's the attitude of most bass fishermen in Texas.

In other words they don't have to be in a tournament to make ready for a run to the lake. They are always ready, be it for a day's angling, a weekender, or a two-week vacation.

Bass fishing is serious business to them. Every detail for the upcoming launch is planned to perfection and completed before they ever hitch up their bass fishing rig to the car. Then it's checked and double checked.

Many of these fellows have lost more and bigger fish than you and I have ever seen, and certainly more than we have ever caught. That's why they are cautious.

Landing the Jumbos

Through their many and varied experiences they have learned the wily ways of the lunker bass. It took hundreds of outings and thousands of casts to master the method of landing the jumbos.

They know that catching bass is one thing but bringing them into the boat is something else.

To the master bass fisherman there are just as many tricks to landing a bass as there are to locating the animal in the first place. Which, believe it or not, brings us back to the beginning of this story.

It has to do with **PREPARATION.**

Advance Planning Important

No serious angler would go to bed the night before a fishing trip, without first of all carefully checking his equipment, his rods, reels, lures, hooks, stringers—his entire tackle-box and everything else that has anything whatsoever to do with his outing, including his car, his trailer and his boat.

Which also means such important mobile items as gas, oil and tires.

To his check list can be added the greasing of trailer wheels, checking for firm attachment of trailer-hitch to trailer-ball, securing the safety chain, tilting the motor and tying down the boat snugly and properly at both bow and stern. This, plus the all important and too often overlooked—doublecheck—to see that the boat's hull is still properly resting on the trailer rollers, guides and bottom supports.

Again, back to the beginning—which means a thorough examination of his rods, lineguides and guide wrappings.

ENERGY TALKS
By Warren B. Davis
Director, Energy Economics

"Is it true that the gasoline shortage was contrived by the oil companies to drive independent marketers out of business?"

"No, the shortage is real and not contrived. It has occurred because our refineries are running at capacity and there is no surplus capacity anymore. In the last two decades independent marketers have prospered by buying surplus product at bargain prices. When there's no surplus product, it makes life very difficult for them. I am confident that my company has not entered into any conspiracy to harass independent marketers. I can't speak for the rest of the industry, but all the evidence I've seen indicates that there is no such conspiracy."

• Mr. Davis was principal author of the National Petroleum Council's "U.S. Energy Outlook" prepared for the U.S. Interior Department.

The Consumer Alert

by John L. Hill
Attorney General

AUSTIN Concern over the possibility of gas cutbacks or electrical brown-outs during Texas' current foul-weather months of January and February have prompted many people to look around for an alternate source of heat for homes.

And what many thing of first is a cozy blaze in a fireplace.

Although it may be debatable how much good a fireplace does in actually heating a house, there is no doubt that it can provide warmth and comfort and the hearth on a cold winter night.

That is, if it's installed correctly and proper materials are used. Otherwise, some of those considering

adding a fireplace could find the problems that could result would be much more upsetting than comforting.

The Attorney General's Consumer Protection Division has had several reports of fireplace difficulties. In one instance, the purchaser of a new \$50,000 house attempted to enjoy a fire in their fireplace only to find that the builders had installed a false one. Before they could put out the fire, their new home suffered smoke damage.

Another incident involved a woman who hired two itinerant contractors to build a fireplace for her. When it was finished, she was puzzled to find that she could not light a fire in it.

The contractors had built the flue and chimney straight up, and had not installed a damper to regular air flow. The resulting draft blew out every fire the woman tried to start.

To avoid problems after a fireplace is built, give plenty of advance thought to what you want, and take certain precautions before hiring a contractor for the job.

The initial step is to decide on the type and size of fireplace desired. Three kinds are available. The best-known is the traditional version with firebrick interior and brick or stone chimney.

Another is a preassembled built-in unit with metal firebox and flue. This kind can be installed to look like the traditional version, even to the point of enclosing the metal flue within a chimney.

The third is a freestanding prefabricated unit that can be placed anywhere in a room.

Any of these types, if properly installed and made of quality materials, should be satisfactory and safe.

Various sizes of fireplaces are available. The size you select will determine the maximum size of the logs you can burn.

San Gabriel...

By Mrs. W. McDaniel

The community was saddened Sunday Morning when word was received that Ralph Heisch passed away at 3:30 after a heart attack at 10 o'clock Saturday night. We extend sympathy to the family.

Mr. and Mrs. Larry Heine and children were visiting relatives in Georgetown Saturday night.

Mrs. Bill Clark accompanied Mr. and Mrs. Gus Clark and John to Victoria to get acquainted with their new grandson and nephew. Sean Burk Blackmon born December 12 to Mr. and Mrs. Clyde Blackmon. On hand to welcome him were four sisters and one brother.

Mr. and Mrs. James Terry and Lynette were in Temple Friday. Weekend visitors in the Terry home was St. Ron Doughty of Ft. Hood.

Harry Wayne Clark of Bryan was visiting her father Harry O. Clark and other relatives and friends Saturday.

George Shine of Houston is here to stay with his grandchildren. While brother

and Mrs. Bob Wimberly attend Texas Baptist Evangelism Conference in Dallas. Monday through Wednesday.

Visiting Mr. and Mrs. Jim McDaniel Sunday were Mrs. Dick Drummond and Annetta and Mrs. Walter McDaniel.

Mr. and Mrs. Bobby Evans and son of Caldwell spent Sunday afternoon with Mr. and Mrs. Jim Stewart.

The Charles Gifford family of Austin, the Curtis Ziesch family and the Lewis Gifford family of Rockdale visited their parents Mr. and Mrs. Guinn Gifford Saturday night.

William Stigall was guest speaker at Davilla church Sunday.

Mrs. Laverne Camp, Mrs. Virginia Heine and Mrs. Loma Davis attended the Y. H. T. State Convention in San Antonio Friday.

Mr. and Mrs. Hugo Linke visited Mr. and Mrs. Roger Gilleland recently. Mr. and Mrs. Gillend are recovering from several weeks of the flu.

Brother Bob Wimberly, Jimmie Henson, Donny Heine

and several ladies were visiting at the rest home in Granger Thursday afternoon.

Maysfield

By Mrs. J. P. Wise

Mrs. Leota Thweatt spent the week end in Austin with her children Mr. and Mrs. Herbert Thweatt and Mr. and Mrs. Larry Thweatt.

Mr. and Mrs. E. B. Yager and H. M. attended the funeral of their niece in Austin on Wednesday.

Stevie Thweatt spent the week end in Houston with his sister LaNette Vrana.

Mr. Roy Newton, Mariema Massengale and Bertha Thweatt were in Temple on Friday.

Mrs. Oran Cook visited her mother in Freeport a couple of days this week.

The ideas some early Americans had about medicine were rather green. They thought that roasted and powdered frogs could reduce fevers.

Cong. Poage Announces His Candidacy For Office

TO MY FRIENDS OF THE ELEVENTH CONGRESSIONAL DISTRICT:

For many years it has been my privilege to serve as your Congressman. For this opportunity of service I express my sincere appreciation. Our record of achievement during these years is one in which my staff and I take great pride, and we hope that it is a record in which you, too, can take pride. Certainly it is one in which you have played a vital part, and we thank you.

The principles which I enunciated in my first announcement are as valid today as they were when I was elected. I believe in the enforcement of our country's laws. I believe in help for our needy and those who cannot work preferably by providing work, but I also believe that those who can work should work. I believe in equal educational opportunities for all our people in their own neighborhood schools. Finally, I believe that this is a representative democracy, and that it is the duty of the Congressman to try to reflect the views of those he represents.

As your Congressman, I have been privileged to assist in a great many public improvement programs including the development of the great Brazos River basin with its many dams and lakes on the river and its tributaries - Possum Kingdom, Whitney, Belton, Waco, Proctor, Stillhouse Hollow, and the two dams now under development on the San Gabriel. In the future I look forward to the opportunity to work for similar developments on the Colorado.

I was the author of the upstream Flood Prevention Program. Brushy Creek in our District, was the first project approved under this program in the United States. Other vital programs of which I am proud to have initiated include the Rural Telephone Bill in 1949 the Rural Telephone Bank Bill of 1971, the Rural Development Act of 1972, and the original Poage-Aiken Bill establishing rural wa-

ter and sewer systems throughout the nation. Golinda in our District, received the first rural water system in Texas, and Chilton the first rural sewer system in the nation. This work is far from complete. I shall continue to insist that funds be made available in keeping with the intent of Congress. So far as I have been able to determine, my proposal for a student loan fund was the first of its kind submitted to the Congress. I believe this is the best way to help needy young people.

Our nation today faces many crisis situations and I don't claim to have any "quick" solutions to these problems. I do know, however, that experience and common sense must prevail if we are to find sensible and workable solutions. Of the 435 Members of the House, only three have had more experience or seniority than I. I believe this "experience", call it what you will, which have given me Chairmanship of the Committee on Agriculture for the last 7 years, has enabled me to be of greater service to our district and our nation.

It is always my hope for our office to give the very best possible service to all our people. Through the years we have developed a very fine staff to assist in dealing with federal agencies, military and veterans affairs, and district, economic and social development programs. It is our desire to continue these efforts, and with your help to again win the nomination and proceed with the business at hand.

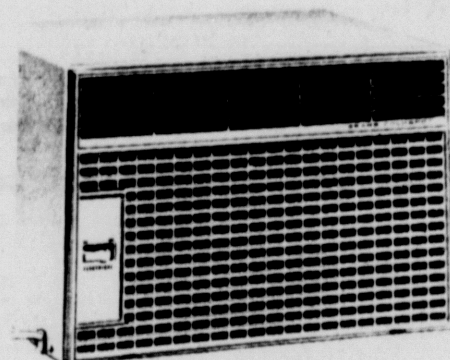

With this background in mind I shall be a candidate for re-election and hope that you may find me deserving in your support.

Sincerely,
W. R. Poage,
Congressman
11th Texas District

Legal Notice

ADVERTISEMENT
FOR THE
CONSTRUCTION
OF
ALTERATIONS
TO THE
EXISTING COURTHOUSE
BUILDING
MILAM COUNTY, TEXAS

NOTICE TO CONTRACTORS
OF BUILDING CONSTRUC-
TION FOR THE COUNTY
OF MILAM, TEXAS

Sealed proposals addressed
to the Commissioners Court
of Milam County, Texas, for
the construction of Altera-
tions to the existing Court-
house Building, will be re-
ceived by the Owner in the
Office of the County Judge,
Milam County Courthouse,
Cameron, Texas until:
2:30 P.M. On Wednesday,
February, 6, 1974 and will
be opened and read aloud
at that time.

Separate bids will be re-
ceived for the following:
1. Cleaning and renovat-
ing exterior surfaces of the
existing building.
2. Removing existing
wood windows and installing
new aluminum windows.

Information, Plan, Specifi-
cations and Proposal Forms
may be obtained at the of-
fice of Emmett Trant and
Associates, Architects and
Engineers, 1505 South Col-
lege Avenue, Bryan, Texas
or P. O. Box 3637, Bryan,
Texas. Telephone (713) 822-
0769 or (713) 822-2647.

Two sets of Plans and Specifi-
cations will be furnished
each bidding contractor wi-
thout charge upon deposit of
Forty Dollars (\$40.00) as a
guarantee as to safe return
of the Plans and Specifica-
tions within five days after
receipt of bids.

The Commissioners Court
of Milam County, Texas re-
serves the right to accept
any bid or to reject any or
all bids and to waive any
technicalities.

Card Of Thanks

We would like to take this
opportunity to thank Dr. Ray
and Dr. Newton for their
good work, entire staff of
nurses at Newton Memorial
Hospital, those who sent fl-
owers and cards, and Bro.
Jim Lafferty of First Bap-
tist Church for their love
and kindness towards us
during my wife's stay in the
hospital.
Mr. and Mrs. C. E. Curtis
89-1tp

We wish to take this op-
portunity to thank our kind
friends, neighbors and rela-
tives for their many expres-
sions of sympathy, food, car-
ds, and beautiful flowers,
and the kindness shown us
during our recent bereave-
ment of the loss of my hus-
band Joe Hrachovy. Brother,
grandfather, uncle. Our spe-
cial thanks to the Sisters
and nurses, Dr. Richardson
at the St. Edwards Hospital.
Reb. Gelser and Rev. Ben-
ish. Pallbearers and Marek-
Burns-Laywell Funeral Ho-
me.

WHAT IS YOGURT?

The word "yogurt" often leaves many of us a bit skeptical or in the dark because we are not sure what it is or how to use it. Actually, yogurt is not just a health food, but is a very healthy food. It is a very tasty source of calcium, protein and minerals, yet is low in calories. An eight-ounce carton of plain yogurt contains approximately 134 calories. It is a custard-like product usually made from fresh skim milk with a special culture added.

Yogurt is especially useful because of the many ways it can be used. Some yogurt is eaten just as is. Try the delicious fruit-flavored kinds. Some yogurt, especially the plain variety, is used in cooking. Many people prefer it with fruit, honey or brown sugar added. It can be used instead of buttermilk or sour cream in many recipes. It is an excellent ingredient for sauces and marinades due to its smooth blending qualities. In cooking, it loses its own flavor, yet intensifies the flavor of other ingredients.

Try these easy yogurt ideas. Add honey and toasted almonds to plain yogurt. Spoon cold yogurt over fresh, ripe strawberries. Mix chopped onion or chives with plain yogurt and use on baked potatoes. Combine 4-5 tbsp. Roquefort Cheese, 1 tsp. Worcestershire sauce and 8-8 ounces plain yogurt for a tasty dressing. Substitute yogurt for milk in quick-fix cream soups. Combine 4 ounces of mushrooms with 8 ounces of plain yogurt, season to taste and heat slightly for a delightful mushroom sauce. Try yogurt on hot apple pie.

If you would like to have some recipes using plain and flavored yogurt, please send me your name and address.
